Subject: **SRM Projects Letter of Reference**

The Snuneymuxw First Nation retained SRM Projects Ltd. in 2015 to lead our Community Energy and Emissions Plan (CEEP) and clean energy screening studies in advance of expected significant population growth. That work is now complete and we are very pleased with the delivered reports and the support provided by SRM Projects.

Scot Merriam of SRM Projects coordinated all of the work, assisting us first in acquiring funding and delivering the baseline data required before completion of the CEEP and clean energy analysis. Scot also acted as our representative in dealing with government agencies, assisted in our community engagement process and was instrumental in keeping the project moving and in helping us meet key deadlines. Throughout the project he was responsive to our needs, demonstrated budget consciousness and when issues arose provided thoughtful solutions.

We have no reservations in recommending SRM Projects to other First Nations and clients who are contemplating energy projects. Pending funding approvals, we intend to continue to work with SRM Projects as we implement recommendations from the CEEP report.

Please feel free to call me at (250) 740-2331 should you require additional information regarding SRM Projects performance.

Sincerely,

Doug Muir
Community Infrastructure Housing Coordinator
